

B.SC. THESES AND M.SC THESES DONE AT LUT LASER&AM ABOUT ADDITIVE MANUFACTURING

TUTKIMUSRYHMÄN VASTUULLINEN JOHTAJA

Professori Heidi Piili, Lasertyöstön ja 3D-tulostuksen tutkimusryhmä, LUT School of Energy Systems, LUT-yliopisto
heidi.piili@lut.fi

(Bolded are Master Theses)

1. Dalae, M., **Selective laser melting (SLM) of lattice structures in solid shells**, Master of Science Thesis, Lappeenranta University of Technology, 2013, 72 p.
2. Härkönen, E., **Metallien lisäävän valmistuksen suunnittelun ja jälkityöstön vaikutus kustannuksiin**, 2019, xx p.
3. Heiskanen, A., **Design case for additive manufacturing : electrode for electrochemical gold separation process**, 2020, 81 p.
4. Hirvonen, A., Metallien teollisen lisäävän valmistuksen tarpeen kartoitus Kaakkois-Suomessa, 3/2018
5. Hovilehto, M., **Design rules for additive manufacturing of metallic materials**, Master of Science Thesis, Lappeenranta University of Technology, 2016, 91 p.
6. Islam, M., **Laser assisted additive manufacturing of stainless steel**, Master of Science Thesis, Lappeenranta University of Technology, 2011, 142 p.
7. Khadim, Q., Characterization of usability of FEM in product design of stainless steel in additive manufacturing, Individual project work, Lappeenranta University of Technology.
8. Kivirasi, E., **Analysis method for spattering**, Master of Science Thesis, Lappeenranta University of Technology, 4/2018
9. Kohtanen, K., **Effect of the most important parameters on properties of Inconel 718 manufactured by laser powder bed fusion**, Bachelor's Thesis, LUT University, 2019, 43 p.
10. Korpela, M., **Material needs of Finnish metal and mechanical engineering industry from the perspective of additive manufacturing**, Master of Science Thesis, LUT University, 2019, 76 p.
11. Kotta, J., **Metallien 3D-tulostusta aloittava yritys: Mihin tulisi kiinnittää huomiota?** Bachelor's Thesis, LUT University, 2019, 52 p.
12. Kriukova, D., **An investigation of the reflection phenomena in the direct energy deposition process based on the stainless steel wire using a fiber laser**, 2019, 61 p.
13. Laitinen, V., **Weldability of laser additive manufactured stainless steel 316L components sheets to conventionally manufactured sheet metal**, Master of Science Thesis, Lappeenranta University of Technology, 73 p.
14. Lehti, A., **Monitoring of stainless steel laser sintering process: comparative study of the suitability of three monitoring methods**, Master of Science Thesis, Lappeenranta University of Technology, 2011, 113 p.
15. Lehti, A., Spectrometrical monitoring of laser sintering process of ceramic material, Bachelor of Science Thesis, Lappeenranta University of Technology, 2010, 63 p.
16. Li, X., **Characterization of effect of different support structures in laser additive manufacturing of stainless steel**, Master of Science Thesis, Lappeenranta University of Technology, 2014, 99 p.
17. Lindqvist, M., **Benchmark study of industrial needs for additive manufacturing in South-Eastern Finland**, Master of Science Thesis, Lappeenranta University of Technology, 2016, 85 p.
18. Linnosmaa, V., **Characterization of thermal effects during laser additive manufacturing of stainless steel**, Master of Science Thesis, Lappeenranta University of Technology, 2013, 84 p.
19. Matilainen, V., **Improvement of process efficiency in laser additive manufacturing of stainless steel**, Master of Science Thesis, Lappeenranta University of Technology, 2014, 103 p.
20. Melanen, L-P., STL- ja AMF-tiedostomuotojen vertailu metallien lisäävässä valmistuksessa, 2019, xx p.
21. Modaresialam, M., **Real-time monitoring of additive manufacturing**. Master of Science Thesis, Lappeenranta University of Technology, 2017.
22. Nieminen, P., **3D-tulostuksen hyödyntäminen erotus- ja puhdistustekniikoissa**, Bachelor's Thesis, LUT University, 2019, 52 p.
23. Nyamekye, P., **Environmental and economical analysis of powder bed fusion**, Master of Science Thesis, Lappeenranta University of Technology, 2015, 111 p.
24. Nyamekye, P., Sustainability of laser additive manufacturing of stainless steel, Individual project work, Lappeenranta University of Technology, 2014, 30 p.
25. Oltamo, M., **Suomalaisen teollisuuden metallimateriaalitarpeet laserpohjaisessa jauhepetisulatuksessa**, 2019, xx p.
26. Perttola, K., **Soveltuvuustutkimus metallikappaleiden lisäävästä valmistuksesta (lankasyöttöinen suorakerrostus)**. Master of Science Thesis, Lappeenranta University of Technology, 2017.
27. Pikkarainen, A., **3D printing – creating learning environment for engineering students**, 2017, 91 p.
28. Rantanen, E., **Characterization of effect of support parameters to properties of work piece fabricated by powder bed fusion of stainless steel**, Bachelor of Science Thesis, Lappeenranta University of Technology, expected to be ready by 12/2016
29. Raukola, J., **Characteristics of metal additive manufacturing in four-stroke engine manufacturing process**. Master of Science Thesis, Lappeenranta University of Technology, 2017, 120 p.
30. Reijonen, J., **Utilizing metallic waste streams as raw material for powder-based additive manufacturing**, Master of Science Thesis, Lappeenranta University of Technology, 2017.
31. Riikonen, N., 3D-tulostetun ristikkorakenteen lujuusominaisuudet. Bachelor of Science Thesis, Lappeenranta University of Technology, 2017.
32. Riikonen, N., **Characterization of part deformations in powder bed fusion of stainless steel**, Master of Science Thesis, LUT University, 2019, 78 p.
33. Ritala, R., **Edulliset tulostetut muovimateriaalit hyötykäytössä tehdasympäristössä**, Bachelor's Thesis, LUT University, 2020
34. Särkkä, M., **Optimization Of Support Structures For Laser Powder Bed Fusion Of Stainless Steel**, 2019, xx p.
35. Silander, R., **Design Considerations for Additively Manufactured Parts on a Surface Mission to Enceladus**, 2019, 79 p.
36. Taimisto, L., **Laser assisted additive manufacturing of aluminum oxide based materials**, Master of Science Thesis, Lappeenranta University of Technology, 2011, 67 p.
37. Taimisto, L., **Process parameters in laser sintering process**, Bachelor of Science Thesis, Lappeenranta University of Technology, 2010, 24 p.
38. Väer, K., **Design and characterization of a digital material class made from isotropic periodic structures by SLM**, Master of Science Thesis, Lappeenranta University of Technology, 2013, 73 p.
39. Väer, K., **Support structures in laser additive manufacturing**, Individual project work, Lappeenranta University of Technology, 2012, 56 p.
40. Venkatamaranan, V., **Cost estimation of laser additive manufacturing of stainless steel**, Individual project work, Lappeenranta University of Technology, 2016, 31 p.
41. Vesänen, S., **Quality of additive manufacturing of metallic materials and its definition**, Bachelor's Thesis, LUT University, 2020
42. Virtanen, P., **Metallien lisäävän valmistuksen kustannukset ja kustannusarviointityökalun kehitys**, Bachelor's Thesis, LUT University, 2019, 56 p.
