

LAB University of Applied Sciences

Anu Kurvinen

Project Specialist, TwinInno R&D Project
Senior Lecturer, International Business

LAB University of Applied Sciences

Focus on innovation, industry and commerce.

Our strengths:

Circular economy, design, commercialization of innovations.

We utilize the resources and special expertise of our two campuses - Lappeenranta and Lahti (online campus being the third official campus).

TwinInno R&D Project

Project's aim: Strengthening the knowledge and innovation hub in South Carelia and Lahti areas

Project's services for companies are for free:

- Innovation & R&D experiments, tailored according to the company needs in different stages of innovation actions
